(v) Results/ Outcome of the MoU

Both institutions have successfully implemented staff exchange programs under the Memorandum of Understanding (MoU) that facilitate the exchange of knowledge and expertise between the two colleges. The programs include two lecturers from each college who gave lectures and participated in specialized academic discussions with the members of the partner college. During all these sessions, the participating students were highly motivated and actively engaged in the academic discussion. Doing this exchange not only enriched the students' academic experience, but also opened them up to different perspectives and approaches in their field of study. Faculty, on the other hand, found this collaboration a way to improve their intellectual sensitivity and academic competence. Overall, these academic exchanges have significantly contributed to a healthy bond between the students and faculty of both colleges. Such initiatives are likely to play a crucial role in creating a supportive and collaborative environment, facilitating a wider exchange of ideas and fostering mutual understanding between the two institutions.

## OUTCOME:

There was an international seminar conducted on *Geographical Information System & Economic Development* under the MOU with Katwa College. Dr. Manjari Sarkar Basu, Associate Professor, Dept. of Geography, Kandra Radha Kanta Kundu Mahavidyalaya was present as the resource person in the said seminar from our college. Students of both the colleges have been greatly benefited from this collaborative academic venture. They have got the opportunity to gather more knowledge from the expertise of resource person present over there.

Moreover, there are several Faculty Exchange Programme have been conducted under MOU with Katwa College which enhanced the knowledge of students and got them an opportunity to interact with the faculties and enrich themselves in academic diversity. Here faculties too find a scope to strengthen intercultural sensitivity and become more intellectually competent. It can also firmly be believed that all these academic exchange practices are very helpful to create a healthy bonding among the students as well as faculties of both the colleges.

**B. DOCUMENTATION**

1. Copy of Activity / Written Record :  
All the departmental faculties, laboratory attendant and students enthusiastically participated in the observation of Nadi Utsav. All most 100 students were present on the day. The event of Sandhya Arati was beautifully performed by the students of Bengali and Sanskrit departments. The competitions held were very well organized and students participated there in full confidence. Though, enough number of feedbacks could not be gathered due to shortage of time in the last phase.

3. Rationale or need of the event/ activity:  
With the degrading condition of different rivers of India it is very important to observe "Nadi Utsav", so that the present generation can understand the sustainable use of river water resource. The special lectures and students' participation in different competitions will increase the knowledge and confidence of the students. They will not only learn about rivers but will feel the need of saving rivers.

4. Perception of the organizers:  
The overall arrangement of the event was very good. The lectures were very informative and relevant in present scenario of Jalangi River. The competitions were very important as they motivated the students and boosted up their confidence level. The performance of student in Sandhya Arati of River Jalangi was really commendable.
